

The path of Recursion

The path of Recursion is the specific absence of both Evolution and Apparent Causality. Evolution goes up then right, Apparent Causality goes right then up. So Recursion as the specific absence of both of them goes across and up, then across and down. This reflects that it is the underlying cause of Evolution and Apparent Causality.

So, 2 6 4 7 3 5 which is Purple Blue Green Yellow Orange Red.

With Purple standing in for Violet that's the order of colors in the Rainbow.
