

The fourth and final path is the path of Recusion. It is the specific absence of Recursion and thus is the cause of Instant Karma. In general things are recursive at their own speed and change gradually. Recusion causes them to change right now. Healing - if one can recover from the illness they will do so right now. Judgment - if the truth will ever come out it will be apparent right now. Recusion causes Recursion and Recursion is things coming back on themselves. The positive becomes more positive and more definite, the negative becomes more negative and wipes itself out. Healing - if one can't recover from the illness, nothing will happen. Judgment - if the truth can never be known it will remain unknown.
